4TH INTERNATIONAL OFF-GRID RENEWABLE ENERGY CONFERENCE & EXHIBITION | 31 OCT - 1 NOV 2018, SINGAPORE

The International Off-Grid Renewable Energy Conference and Exhibition (IOREC), organised by the International Renewable Energy Agency (IRENA), is the global platform dedicated for sharing experience and best practices about design and implementation of enabling policies, tailored financing schemes, innovative business models and technology applications for stand-alone and mini-grid systems. The 4th edition of IOREC will be held in Singapore on 31 October - 1 November, 2018, during the Singapore International Energy Week (SIEW).

With over half a billion people in Asia are still without access to electricity, the synergy with the ASEAN Ministers on Energy Meeting, chaired by Singapore in 2018, and with the Asia Clean Energy Summit, will greatly help highlight the role decentralised renewable energy solutions can play in electrification strategies in the region and beyond, as well as the role of off-grid renewable energy in achieving several of the Sustainable Development Goals.

The Alliance for Rural Electrification (ARE) will organise an Exhibition in parallel with the Conference. The Exhibition is meant to give the private sector the opportunity to present its products & projects and to showcase the technologies & know-how at the forefront of off-grid renewables.

Confirmed exhibitors :

Why Exhibit

The Exhibition is open to all interested companies and organisations. We especially encourage the private sector to participate, present its products and projects and showcase the technologies and know-how at the forefront of off-grid renewables.

Do not miss out on your best opportunity to connect and network with the most influential group of off-grid professionals this year!

The Exhibition is an opportunity for companies to:

- Present your products and projects;
- Showcase the latest off-grid technologies and know-how;
- Raise your profile in developing markets, especially in Asia;
- Create business by networking with representatives from rural electrification agencies, the private sector, financing institutions, development agencies and international organisations;
- Demonstrate your commitment to the collective and ongoing commitment of ARE to the UN's 'Sustainable Energy for All' initiative and Sustainable Development Goal (SDG7).

How to Exhibit

15 stands are available and confirmation will be made on a first-come-first-serve-basis.

Become a Member of ARE now and benefit from a 50% discount until 2018 and enjoy an additional Member discount for stand bookings!
